About This Game

Play with 4-10 player online or via local WiFi as you attempt to prepare your spaceship for departure, but beware as one or more random players among the Crew are Impostors bent on killing everyone!

Originally created as a party game, we recommend playing with friends at a LAN party or online using voice chat. Enjoy cross-platform play between Android, iOS and PC.

THE CREW

Objective: Fill Group Task Bar or Discover the Impostor!

- Win by completing tasks to prepare the ship or ejecting all Impostors.

- React quickly to undo the Impostor's sabotages.

- Check the Admin map and Security cameras to keep tabs on other Crewmates.

- Report any dead bodies immediately to start discussion of who the suspected Impostor is.

- Call emergency meetings to discuss suspicious behavior.

- Vote to eject suspected Impostors.

THE IMPOSTOR

Objective: Kill off the Crew

- Kill crewmates and frame bystanders.

- Pretend to run tasks to blend in with the crewmates.

- Sneak through the vents to quickly move about the ship.

- Use sabotages to cause chaos and divide the crew.

- Close doors to trap victims and kill in private.
Features

- Customization: Pick your color and hat.

- Lots of game options: Add more impostors, more tasks, and so much more!

- Quickly find a game online from the host list.

- In-game text chat.

- Rich discord integration.

- Cross-platform play between PC, Android, and iOS!

This game is a great mix between hidden object and puzzle genres. I thought the artwork was unique and gave a slight extra challenge to finding some of the objects. There was an odd cutscene that felt entirely out of place in the first chapter-- perhaps it is better explained somewhere in later chapters.. It's better than the previous Oh...Sir! game, but still very simplistic. The jokes get old quickly, and become more annoying than funny. This review was written in English and Russian in purpose to save your money and time.

They claim Sc\u00e9al is an adventure game but it\u2019s rather a visual novel which looks like a movable book with pop-up pictures.

Story
In Steam Joint Custody, the only game\u2019s developer, concisely describes Sc\u00e9al as being \u00absteeped in supernatural Irish folklore\u00bb.
Sc\u00e9al means \u201cStory\u201d in Irish language (Gaelige or Gaelic) so Joint Custody tells you a story about a girl\u2019s spirit who seeks to find her memories with the help of the raven named Branna.
The game puts you in the shoes \u2014 or rather the soul \u2014 of a little girl who has no memories of her previous life. It\u2019s a simple but interesting story but it\u2019s so short that you can complete it less than two hours.

The Irish folklore is represented in the game through some forms of the girl ghost (angel, banshee) and a mythical raven named Branna.

Br\u00e2n the Blessed (Gaelic: Bendigeidfran or Br\u00e2n Fendigaidd, literally "Blessed Crow") is a giant and king of Britain in Celtic mythology. He appears in several of the Welsh Triads, but his most significant role is in the Second Branch of the Mabinogi (Branwen ferch Ll\u0177r). The name "Br\u00e2n" in Gaelic is usually translated as crow or raven.

Gameplay
In Sc\u00e9al, there\u2019s simple and symbolic mechanic: wherever a heart goes, the soul must follow. This becomes your method of movement in the game. Players pull an ethereal green heart around the map, and the floating soul chases it to the destination.
You make the girl\u2019s spirit float around a small island consists of two villages and paint some objects (buildings, stones, trees). As you can see the game is focused on its story rather than gameplay. This would be completely fine if the story really pulled you in but it doesn't manage to do this.

Graphics
I liked the graphics of this game. Designed to resemble a storybook, Sc\u00e9al\u2019s pages are filled with pretty watercolor artwork. Upon opening the town map, ink spreads outward to complete the entire picture

Sound\/Music

The soundtrack of this game is what shines here because it tells the story more through its music. I enjoyed the Irish folk music here as it was high quality and definitely fit the game's tone.
There\u2019s an outstanding soundtrack featuring Irish folk singers such as Aislinn Duffy and Florence Glen. If you have an interest in Irish folk music (like me), you\u2019ll like the Sc\u00e9al\u2019s soundtrack for sure.

Conclusion
I ought to say Sc\u00e9al is more of a narrative than a game and besides very short one. I do not recommend Sc\u00e9al to anyone except those who are keen of Irish folk music.

Scéal хочет быть приключенческой игрой, но это скорее визуальный роман, который выглядит как книга с подвижными частями - всплывающими иллюстрациями.

История
В Стиме Джойнт Кастоди, являющийся единственным разработчиком игры, кратко описывает Scéal как «погружение в сверхъестественный ирландский фольклор».
Scéal означает «История» на ирландском (гэльском) языке, так что Джойнт Кастоди рассказывает историю о духе девушки, которая стремится найти собственные воспоминания при помощи ворона Бранна.
В игре вы оказываетесь в шкуре - или, скорее, в душе - маленькой девочки, у которой нет воспоминаний о ее предыдущей жизни.
Это простая, но интересная история, правда настолько короткая, что вы можете завершить ее менее чем за два часа.

Ирландский фольклор представлен в игре посредством различных форм

I've tried. Some crazy dialogues (yes, it has dialogues to skip before each round) along with pluck the eyes chips design.

Game is also roughelike - you have 3 attempts to fail and then loose all of your progress.. ENG:

Otherwise, a good game, but the game is too difficult for many and difficult to approach.

FIN:

Muuten hyv\u00e4 peli, mutta peli on liian vaikea monille ja vaikeasti l\u00e4hestytt\u00e4v\u00e4.. Game is not that bad as the reviews make it seem. Could use some rebinding but overall its ok.. I rarely give review for free to play game(s); but this one, compels me to do it. 'Compels' on pleasing way of course.

This is short, with not-so-good graphic quality, and very limited area to explore.
But the major plus of this game -which could deny all of limitation above, are the gameplay and idea. I don't wanna spoil anything.

so better You just play it by Yourself. It's really worthy time and fun tho!

The humour, maybe not for everybody tastes, and some lines might be cringy and annoying, but the whole idea and concept, I could say, it's not cheap.

I don't know are these related to real experience of the developer of this game, ROFL, or what; because the idea of plot and theme are compact enough to be enjoyed.

My last words for conclusion are, this is really short but decent game, BRAVO!. I remember playing this game as a kid in Compucamp while everybody else decided to socialize...

Actually, this is pretty much all i played... wish i actually payed attention to the html scripting class they held.... oh well.. Very fun game, Really enjoy playing it trying to build a base before being inevitably destroyed because my cannons refuse to fire. :). From all of the Visual Novels that I've read, this is one of the few Visual Novels that were thought provoking for me when I was reading through it. The characters, setting, and story were really relaxing to me.

Pros:
+ Great Scenery
+ Thought Provoking
+ Great Characters
+ Great Story
+ Good length for a Visual Novel

Cons:
- Some of the hints are a little ambiguous

This game seems fun at first, then after the first 2-4 levels you realize the only difference is that the enemy gets tougher, starts working faster and the terrain starts off different... Eventually had to start carving massive mountains to slow down the enemy which failed when their God flattened them and i ran out of Mana. 1\/10 fun for the first few levels and gets incredibly dull and repetitive.. Game puzzle with nice music and hentai images can be improved but good for the price is good in general.. Not very fun. I think I played it for a couple hours then it lost my attention. There isn't much to the game.. Fun game to play with, definitely has work to be done on it, like a good ending and other endings, but so far i liked it and got all the achievements for it, cant wait to see what else is added to the game!. \ud83c\udf1f\ud83c\udf1f\ud83c\udf1f\ud83c\udf1f\ud83c\udf1f. Earned in blood plays exactly like the first game. I didn't like Road to hill 30, I thought it was a mediocre World War 2 shooter and my thoughts on that game carry over to this one too. Again the great voice acting and the decent story save this game from being a disaster but to me, it doesn't save it from mediocrity. Knowing that the game plays exactly like the first one before playing it, I played it on easy this time to get the game over and done with and just see what the story offers, and the game ends up being less than 4 hours. I'm not sure if this was a standalone expansion to the first game, because it sure plays like one. 4/10 (Mediocre). I see they are trying to make a challenging game but it doesn't get challenging, most of it is just tedious.... I bought this game due to having previously played it on the PS3, and wanting to get back into playing it. Having done so, I've been reminded of how utterly charming it is to play. Granted, the PC controls didn't initially sit well with me and I still find them rather awkward, but after a while, I've managed to get the hang of it.

One thing I have noticed is that when I try playing with my PS4 controller the game refuses to open (or rather, it seems to fail). And when I did manage to get the game working with the controller, it timed out during gameplay, leaving me powerless and unable to control my character. Furthermore, for a PS4 controller the game seems to give its instructions as if I plugged in an XBOX controller. It's easy to work around, but a slight annoyance nonetheless.

I guarentee that you'll love this game if you're a fan of Disney. Just get through the controls and you'll be fine. It's bright, colorful and everything in it's pretty fun in general. It may feel a little repetitive (especially considering you'll have to play through each stage twice to get both costumes from each one) but trust me, it's a blast.

One thing I would like though is for the DLC packs they had for the console versions to be brought over; the Phineas & Ferb and Neverland levels, and the Disney Villains and Muppet costume packs. Particularly the former two, though, for it helps add to the game. I'm not too fussed about this though, honestly, since it doesn't take anything away from my enjoyment of the game.. YEAH 1: Right click to transform in ashes any creature with your powers from darkness. Muahahaha.
YEAH 2: Being evil or whatever you want, you get licence to kill. Animals, goblins, all life on earth and other strange things.
♥♥♥♥ING YEAH: A must-have for tower defense addicts with new gameplay (strategy, powers and much more).

Forget the UI and rule this too-much-colorfull world. Take all the souls. Muahahaha^2 x2.
